

Llantwit Major Archers
Creation of New Course: The Langley

Dear Members,

As you will be aware due to the changes of ownership at Fonmon castle we have lost access to our old Fonmon course. Following this loss, we have been actively seeking a new location to create a new club course.

We are pleased to be able to announce that we have located a location for a new course. During our negotiations with the new owners of Fonmon, a new location was proposed on land owned by the new owners of Fonmon Castle.

We will be beginning the construction of a field course and facilities, in the coming weeks and months, but it will not be possible to complete the course to the standards we require and have all come to expect without the assistance of all club members.

It is our intention to hold an open evening at the Langley shortly so that all members can have a chance to view the location, and see the scope of the future possibilities. The Langley, comprises of 15 acres of land, including a paddock and wooded area.

More details on the open evening and developments will follow shortly.

Regards

The Llantwit Major Archers Committee
